

## DIGIstrobo

**DIGISTROBO** is a unique new digital instrument for extremely accurate measurement of turntable speed. Microprocessor-based with a precise Quartz crystal.

Different from any other strobe, HIFI4MUSIC's **DIGISTROBO** not only measures the actual speed of the platter at any moment, even while the record is playing (!), but you will also be able to evaluate not only the precision of your speed settings, but also speed fluctuations of your turntable's motor (wow and flutter).

**USA Retail Price: \$159.95**

# HiFi Tuning

HiFi-Tuning's Silver-Gold upgrade fuses have become the "Gold Standard" for high end fuses. Now a *Stereophile* "Recommended Component."

- hand made and tested in Germany
- gold over silver end caps
- pure silver wiring
- ceramic casing for better resonances characteristics.
- cryogenically treated

**USA Retail Prices:**

5 x 20mm (.75") size, **\$29.95**  
 6.3 x 32mm (1.25") size, **\$39.95**

Most values up to 20A in fast and slow blow types available. Also 13A UK plug type, and some larger 38mm values for special applications.

HiFi-Tuning is also the #1 choice for high end gold-plated Schukos. Two gold-plated sizes and 3 quality levels in addition to standard brass, nickel, and rhodium -plated options.

**Best in the World "Ultimate IEC" connectors** feature Phosphor Bronze 95% copper contacts accepting up to 7 gauge conductors!  
**Available First Quarter 2008.**

★ **Noise Destroyer**

The most effective device ever devised for elimination of AC line noise- RFI and EMI.

**USA Retail: \$249.95, or \$449.95/pair.**

# Audio Desk Systeme

The **Audio Desk System** CD Edge Cutter was named **2006 Product of the Year** by *Hifi+* magazine in the UK.

Audio Desk System is a motorized cutting device manufactured in Germany. It is designed to "true" the shape of the CD to reduce mechanical jitter, and also trims the edge of the CD to a 38° angle to reduce laser scatter. This edge is then further treated with a black marker. The process takes about 60 seconds and results in pronounced improvements in focus, transient attack, detail and transparency.

**USA Retail Prices:**

CD cutter: **\$799.95**  
 (with long life hardened alloy blade)

**CD Cleaning machine:**

**USA Retail Price: \$2299**

# Cathedral Sound

A small, décor- friendly means for reducing room acoustic problems, especially those associated with bass standing waves. This Patent Pending application of the well-known Venturi effect to room acoustics, results in the only small acoustic panel effective on deep bass response below 100 Hz, where room nodes are principally excited. But this also affects all the harmonics of these low frequencies, so not only is bass more tuneful with greater impact, but the midrange (and dialog) is more articulate, and sound stage size and layering is significantly improved.

**Dimensions: 11" x 16" x 2" (28 x 41x 5 cm)**  
**Shipping Weight: 12 lbs. Per pair (~5.5kg)**  
**Retail Price: \$179.95 per pair**  
**Made in USA**
